

SPILL CONTROL PRODUCTS

To help maintain a cleaner, safer workplace environment

Universal Spill Kit : Twist-on, double-wall lid with closed-cell gasket provides sealed and secure closure to protect sorbents from moisture, dirt and damage. Rust- and corrosion-free 100% polyethylene is durable to withstand rough handling. Easy-to-move Kit can be transported via standard material handling equipment.

Universal Absorbent Pads : Grunge-hiding Gray signifies universal sorbency for oils, coolants, solvents and water. Universal Mat Pads control spills and overspray to help keep floors dry and safe.

Oil Only Spill Kit : Twist-on, double-wall lid with closed-cell gasket provides sealed and secure closure to protect sorbents from moisture, dirt and damage. Rust- and corrosion-free 100% polyethylene is durable to withstand rough handling.

Hazmat Absorbent Pads : 100% polypropylene Mat absorbs any type of caustic, hazardous or unknown liquid — including acids, bases, solvents and chemicals. Color-coded Safety Yellow for fast identification. These polypropylene MeltBlown Mat Pads soak up acids, bases and unknown fluids fast.

Hazmat Kit : Twist-on, double-wall lid with closed-cell gasket provides sealed and secure closure to protect sorbents from moisture, dirt and damage. Rust- and corrosion-free 100% polyethylene is durable to withstand rough handling. All-in-one design for easy maneuvering; two attached wheels and built-in handle mean no dolly or material handling equipment is needed.

Oil Absorbent Pads : MeltBlown Mat , Sonic Bonded & Fine Fiber Pads quickly absorb oil for effective cleanup of petroleum-based spills on land or water. Polypropylene fibers are left in their natural hydrophobic state. These hydrophobic fibers repel water while only absorbing oils and other hydrocarbons.

SPILL CONTROL PRODUCTS

To help maintain a cleaner, safer workplace environment

Universal Pillow : Universal Pillows to absorb high-volume leaks and spills of oils, coolants, solvents or water. Pillows are easy to place in hard-to-reach areas — use under machines and leaky hydraulic hoses or wedge in corners cramped for space.

Universal Absorbent Socks : Ideal for surrounding spilled fluids or wrapping around leaky machines. Easy and convenient to put into place. Contain spills to keep fluids from spreading into larger areas and becoming slippery hazards. Flexible to conform around machine bases and offer a snug fit with no seepage.

Oil Absorbent Pillow : Oil-Only Pillows to absorb high volume leaks and spills of oil and other petroleum based liquids on land or water. Ideal for spill response. Easy to toss into action. Pillow's large surface area speeds the absorption process and shortens the overall response time on land or water.

Oil Absorbent Socks : Polypropylene-filled Oil-Only Socks contain and soak up petroleum-based fluids fast while repelling water. By selectively absorbing petroleum-based liquids and not water, these polypropylene-filled Socks take in more oil and can be left on the job longer. They also float for cleanup of waterborne hydrocarbons.

Hazmat Pillow: 100% polypropylene Pillows quickly absorb nearly any type of caustic, hazardous or unknown liquid — including acids, bases, solvents and chemicals. Color-coded Safety Yellow for fast identification; know exactly what you're reaching for in an emergency spill situation.

Hazmat Socks : Ideal for surrounding spilled fluids or wrapping around leaky machines. Easy and convenient to put into place. Contain spills to keep fluids from spreading into larger areas and becoming slippery hazards. Flexible to conform around machine bases and offer a snug fit with no seepage.

SPILL CONTROL PRODUCTS

To help maintain a cleaner, safer workplace environment

Universal Absorbent Roll : Sonic Bonded Mat Roll controls spills and overspray to help keep floors dry and safe. Grunge-hiding Gray signifies universal sorbency for oils, coolants, solvents and water.

Oil Absorbent Roll : Sonic Bonded Mat Roll controls spills and overspray to help keep floors dry and safe. A random assembly of large-diameter MeltBlown poly fibers creates a lofty layer. Mat absorbs high volumes of liquid fast. Great for catching overspray or soaking up spills.

Hazmat Roll : When hazardous liquids spill, use HazMat Sorbents for quick, efficient response. 100% polypropylene Mat quickly absorbs nearly any type of caustic, hazardous or unknown liquid, including acids, bases, solvents and chemicals. Color-coded Safety Yellow for fast identification.

Oil Absorbent Boom : Strong mesh outer sleeve encases a poly sock skin filled with highly-sorbent polypropylene. Filler won't shed and Booms won't sink, even when saturated with oil. A nylon rope and sturdy hardware ensure long-lasting durability and easy retrieval. Durable, easy-to-use connectors provide a simple and efficient way to link Sock/Net Booms together and create a containment system big enough to handle almost any size spill on water. Clip together with metal connector hardware.
